

DESIGNET

The Designets are the most avant-garde systems from an aesthetic point of view.
The wire mesh, a product used almost exclusively in the industrial field, reinvented in an architectural style, is able to satisfy the most refined aesthetic tastes.

I Designet sono i sistemi più avanguardistici dal punto di vista estetico.

La tela metallica, prodotto usato quasi esclusivamente in campo industriale, reinventato in chiave architettonica è in grado di soddisfare i gusti estetici più raffinati.

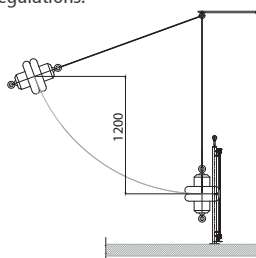

General Characteristics

The Designets are the most futuristic railing systems of the IAM Design division. Ideal for innovative and revolutionary architectures with this system being characterized by trend setting wire mesh. This element, a product used almost exclusively in the industrial field, reinvented in an architectural style, is able to satisfy the most refined aesthetic tastes.

Available in both soft cloth and rigid mesh versions.

Tested according to European regulations.

Technical Features and configuration

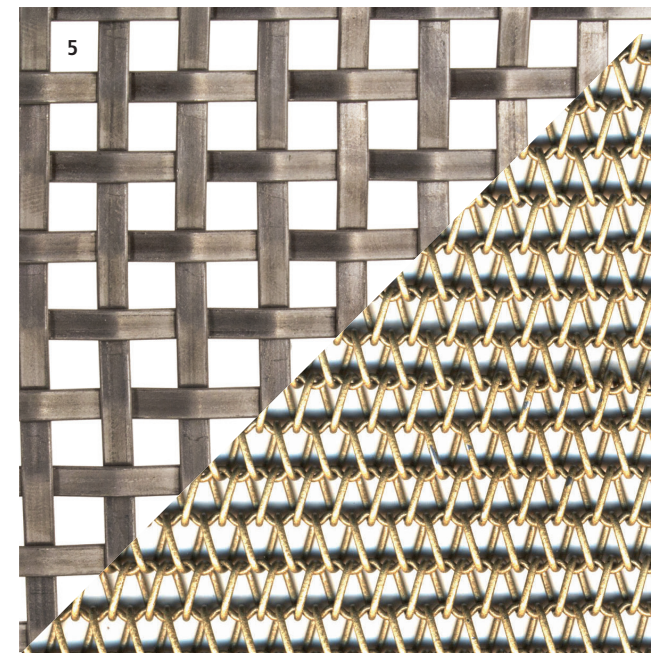

- 1 Application with soft cloths.
- 2 Alternative with hard cloths.
- 3 Structural profile in stainless steel with a mechanism for fastening the cloths.
- 4 Profile fixing clamp that connects the framed cloth to the pillar.
- 5 The system can be customised on request and used with other types of wire mesh of your choice.

Floor anchorage
Ancorato a pavimento

Lateral anchorage
Ancorato lateralmente
